MME TaskForce Webmeeting 010409 Agenda

MME TaskForce Webmeeting 010409 – Agenda

01.04.2009   **9:30- 11:00**   **Block 1**

– Introduction

– Forum

01.04.2009   **13:30- 15:00**   **Block 2**

– Status of MME 1.x

– ToDo-List MME

02.04.2009   **9:30- 11:00**   **Block 3**

– Discussion of MME 2.0 proposal 5

02.04.2009   **13:30- 15:00**   **Block 4**

– Discussion of MME 2.0 proposal 5

– VSIM

– Next date and place

Introduction

Participants:

– Frank Lehmann   AUDI

– Dirk Vetter   IAT

– Sebastian Rings   MeasX

– Paul Wellicome   MIRA

– Peter Derpmann-Hagenström Volkswagen

– Bernhard Geyer   NI   (only 02.04.09)

Forum

– Acceptance of the forum

– Corrections to existing codes

☑ Correction to the MainLocation SLMB

– Clarification

☑ SIDIIs FineLoc1 and 2 for thorax locations

– Codes for special dummies or dummy parts

☑ Codes for WorldSID   -> a list of codes is attached to the topic
http://www.iso-mme.org/forum/viewtopic.php?f=5&t=76

Forum

– Additional codes:

☒ New MainLocations for Step and Seat Lower Cross Member:

STEP for the step   (figure VEH_1 has to be changed)

SLCM for the Seat Lower Cross Member   (figure INT_1 has to be changed)

-> postponed

☑ New MainLocation for Jaguar LandRover:

SUSM for suspension mount   (see ISO Codes.ppt)

TRCM for transmission cross member

-> **TRCM** instead of **TRAM**

☑ New MainLocation for hybrid cars:

FTHP for Fuel Tank High Pressure   (no figure)

-> **FUL2** see solution d) in   http://www.iso-mme.org/forum/viewtopic.php?f=38&t=104

☑ New MainLocation for Force Actors:

FACT / **ACTU** for Force Actor / Actuator   (no figure)

Status of MME 1.x – ToDo-List

– Use of MME 1.x versions in the diverse companies

-> in most companies the channel codes of version 1.5 are used;
for the descriptors and the data structure versions 1.0 – 1.5 are used or supported

– Status of MME 1.6

☑ Update of the database -> intermediate version number 1.6p1 will be introduced for
the internal usage of AK-ISO-MME members;
see   http://www.iso-mme.org/forum/viewforum.php?f=59

☑ Update of the dummy figures -> CorelDraw files are available (which MME-version?)

☑ Update of the vehicle figures -> only wmf files are available
Paul Wellicome will update the dummy and vehicle figures in the future

– ToDo-List for MME 1.6 and 2.0

-> see the updated list (MME and VSIM topics) at
http://www.iso-mme.org/forum/viewtopic.php?f=36&t=52&p=59#p59

Discussion of MME 2.0 proposal 5

- Finishing the new main document (2.0p5)

- The new RED A (2.0p5) – basic principles
  - usage of identifiers instead of numbers
  - usage of optional descriptors
  - blocking levels
  - predefined data stuctures
  - …

- Testdata

-> the result of the discussion of the basic principles is fixed in
  http://www.iso-mme.org/forum/viewtopic.php?f=35&t=55
  open issues should be added under this topic, too.

Status of VSIM

– Overview of the Status of VSIM by Frank Lehmann

– Next steps

– ToDo-List VSIM

-> RED B and C are uploaded to the forum section „TS 22240 – THE CURRENT RELEASE".
   RED A will be uploaded after some bugfixing.
   A crosstest with standard ASAM tools was performed:
        All tools could read the data.
        Some tools got problems with the creation of test components.

Next meeting

– The next meeting is planned as a webmeeting in the summer

– It should consist of two blocks at one day

– In autumn a ‚personal' meeting should take place
