☒ Discussion

Discussion of MME 2.0 proposal 6

- New main document (2.0p6)

- > <http://www.iso-mme.org/forum/viewtopic.php?f=35&t=53>

- New RED A (2.0p6)

- > <http://www.iso-mme.org/forum/viewtopic.php?f=35&t=54>

- Open issues

- > <http://www.iso-mme.org/forum/viewtopic.php?f=35&t=55>

- ☒ Discussion with the following main results:

- > instead of using the reference system in addition to <testnumber> and <channelcode> the channelcode will be extended by a combination of reference system and data source information

- > in data files the header and the data sections are separated by a „#Start of data“ line

- > channel data files have to be stored as one component channels only

Next meeting

– Date and place of the next ,personal‘ meeting

-> invitation of MIRA for the next personal meeting in Nuneaton (UK)

-> a date after the next WG3 meeting is possible
it could be October or November 2009
the date should be discussed in the MME-Forum
