## Corrections of the published maindocument and RED A

- all data files for specific mediatypes have to be stored in the corresponding <mediatype> subdirectory in a file named <testnr>\_<mediatype>.mmd
- all other data files has to be stored in the subdirectory <object>
- add a hint for <testnr>\_Static.mmi in RED A: „for future use“
- correction of the general naming rules which are are in conflict to non-channel data files

The revised versions of the maindocument and RED A are published at
